

THREE CENTS Lemon Tonic

The name comes from the Great Depression era when soda bars were in existence. At soda fountains people would order plain carbonated water as ‘Two Cents Plain’ as it was the cheapest drink one could get. When flavored syrup was added, like vanilla or cherry or sarsaparilla, the total cost would be Three Cents.

The first “handmade” Greek collection of carbonated drinks was inspired by bartenders for bartenders for a simple purpose, to work as a base for cocktail recipes as life is too short for a bad gin tonic. To be used as the ultimate mixer for cocktails and long drinks maintaining their fizziness down to the last drop. How? By carbonating their formula above 5 atm and keeping it natural. Soon they were consumed by many as soft drinks and are now being the protagonist at numerous hip bars both in Greece and abroad.

The main idea behind Three Cents Lemon Tonic was to highlight the 3 Greek varieties of lemons and create a genuinely refreshing tonic water for your cocktails and long drinks. By blending the aromas and flavors of yellow lemons, limes and bitter oranges from the Mediterranean region, high quality natural quinine and carbonated spring water, they have managed to create a lemon tonic unlike any other.

Carrying a bouquet of intense citrus aromas, Three Cents lemon tonic is perfectly suited for Collins or Sour style cocktails but can also be served alone as a beverage. Its sprightly essence brings out the flavor of every drink turning every sip into an invigorating taste experience tantalizing the taste buds. The drawing of a lemon with the green leaf on the bottle reflects its refreshing and sprightly character.

Packing: Glass bottle 200ml **Carton:** 24bottles x 200ml

Ingredient List: Water, Sugar, Carbon Dioxide, Citric Acid, Natural Lemon Flavor, Natural flavors, Quinine, Gum Arabic

Nutrition Facts (per 100ml): 48 cal, Fat 0g, Carbohydrates 12g (Sugars 12g), Proteins 0g, Salt 0g

Shelf life: In the original, unopened container, dry, no sunlight, 10 to 30°C storage: 365 days from the production date.
